

# Cycle Storage Tornado Cycle Shelter Range

The tornado shelter is our most versatile and best selling value shelter.

It's engineered design offers strength and modern looks, manufactured with multiple purlins to provide a robust and durable cycle shelter that will withstand constant use and last.

As a standard it is 4000mm long and 2100mm wide and can comfortably house 10 cycles. It is a modular design that can be increased to any required size for increased cycle storage capacity.

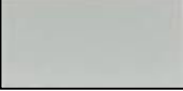

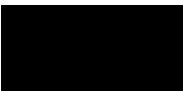

A very flexible design of shelter, the Tornado can be used as a motorcycle, waiting, smoking or bus shelter.

Attractive look that will fit in with any surroundings, offered in a range of finishes and colours for you to choose from.

Full installation and site survey service available.
